# First Aid Instructions

Essential medical procedures with step-by-step visual guides

 CPR Bleeding Choking Burns Shock

## ❤️ Cardiopulmonary Resuscitation (CPR)

Difficulty: 

1

### Check Responsiveness

Tap shoulders and shout "Are you okay?" Check for breathing and pulse.

 Emergency Chat

3

### Position Hands

Place heel of one hand on center of chest, other hand on top. Interlock fingers.

4

### Compress Chest

Push hard and fast at 100-120 compressions per minute. Allow chest to fully recoil.

5

### Give Rescue Breaths

After 30 compressions, give 2 rescue breaths. Tilt head, lift chin, pinch nose.

#### Important Tips

- Continue CPR until help arrives or person starts breathing
- Use "Stayin' Alive" beat for compression rhythm
- Don't stop unless you're too exhausted to continue

Emergency Chat

# Survival Kit Checklist

Essential supplies for 72-hour emergency preparedness

## Water & Hydration

- 1 gallon per person per day (3-day supply)
